

**Remarks**

A substitute sequence listing in computer readable form is attached to this paper. The amendments to the sequence listing have been made to bring the sequence listing into compliance with the formality requirements. Applicant has noted the warning code in the reviewer's marked-up sequence listing corresponding to field 213 of sequence numbers 1, 2, 3, and 4. Applicant has reviewed these sequences and has failed to find any deficiencies in the entries for these sequences. Applicant requests that, should the Examiner disagree with Applicant's finding, the Examiner elaborate the reasoning for any deficiencies in these sequences. No new matter is introduced by means of these amendments.

In the event that this paper is not considered to be timely filed, the Applicant respectfully petitions for an appropriate extension of time. Any fee for such an extension together with additional fees that may be due with respect to this paper, may be charged to Counsel's Deposit Account No. 02-2135.

Respectfully submitted,
